

Entrepreneurship Simulator

Created an interactive 3D environment for aspiring entrepreneurs. Developed virtual mentor, Dr. Kartik, to guide users. Incorporated a knowledge bank with detailed information. Designed scenario-based learning with articles, graphs, and videos.

Solution: An interactive, 3D startup simulator that provides practical learning and personalized guidance through various business scenarios.

Features

1. Interactive 3D environment
2. Virtual mentor: Dr. Kartik
3. Knowledge bank with insightful information
4. Scenario-based learning
5. Graphs, articles, and videos for comprehensive understanding
6. Personalized feedback and learning nuggets

Benefits/Impact

1. Hands-on, interactive learning experience
2. Practical application of business concepts
3. Personalized feedback and guidance
4. Accessible and engaging content
5. Real-world scenarios for better understanding
6. Encourages continuous learning and improvement
